## ENTIRE FAMILY IS WIPED OUT IN BAD BLAZE

Family Of Six and Three Others Perish In New York.

**APARTMENT BURNS**  
Building Guttured By Disastrous Fire Late Thursday.

New York, Nov. 20.—Nine persons, including an entire family of six, were suffocated and burned to death here today in a fire that swept rapidly through a five-story brick apartment house at No. 307 West 146th street. The building was gutted.

Starting on the ground floor shortly after 5 a. m. the flames spread so rapidly that by the time the firemen arrived and the occupants aroused, the whole lower structure of the building was burning and escape for those on the upper floors was cut off. Many thrilling rescues were made by firemen and pedestrians who carried sleeping and unconscious children down the fire escapes.

The dead:  
Mrs. Ethel Reynolds, 40, a widow.  
Ruth Reynolds, 16, her daughter.  
Mrs. Ada Frank, 39.

Ralph Gibbia, his wife, Anna and their four children, Carmella, 7, Frank 5, Lena 3, and Jennine, 18 months.

The fire is believed to have started from a cigarette stub carelessly thrown among some baby carriages under the stairway of the ground floor. It shot up the wooden stairway with great rapidity, mushroomed out to other floors and before firemen could get a hose on it was shooting through the roof. Nearly all the fire fighting apparatus in Harlem was on the scene.

The Gibbia family on the top floor was entirely wiped out. Mrs. Gibbia's body was found by firemen lying across the window ledge where she had evidently fallen while trying to grope her way through the smoke to escape. Two of her children lay a few feet behind her. The other two children and the father were in the rear of the apartment.

Five of the dead were children; the rest were adults. At 8 o'clock this morning firemen had succeeded in controlling the flames and had removed nine bodies from the building. The cause of the fire has not been determined. According to firemen it started on the ground floor of the building and swept upward through the areas and corridors, shutting off from escape those who lived on the upper floors.

The building housed 16 families nearly all of which had children. Scores of residents fled down the fire escapes attired in their night clothing and carrying such of their belongings as they could hastily grab up in flight.

Firemen carried out many spectacular rescues, carrying unconscious children down the fire escapes to the street below.

**BREWRIES SEIZED ON OFFICIAL ORDER FROM WASHINGTON**

Jackson and Herancourt Plants Under Federal Seal.

Cincinnati, O., Nov. 20.—Two Cincinnati breweries, the Jackson and Herancourt plants, are under government seal today, being seized on official orders from Washington, charging them with violating the prohibition law as regards access alcoholic content in beers manufactured by these concerns. Owners of the breweries have prepared bonds for the release of their property.

Indictments were also issued yesterday against several persons alleged to be involved in "whiskey ring" operations in this city and vicinity. Those most prominent in the report of the grand jury are John E. Zerby, Summitt Hill, Pa., wholesale liquor dealer; Henry, alias Harry Friedman, Pittsburgh attorney; Mayer, alias Mike Albert, local pawnbroker; August Britten, alias Gus Kelly and Ray E. Stephenson, Walnut Hotel; E. Menninger, truckman and John Dobbratz, Cincinnati wholesale druggist.

National Prohibition Director Kramer while here last week attending the soft drink manufacturers of America convention, was given information that he said, which led him to order federal supervising prohibition agent Stone and his forty assistants to raid breweries and saloons and seize supplies of beer.

A general "clean up" throughout the United States to compel enforcement of the prohibition law is also contemplated by Director Kramer, it was said today.

**GREAT AMOUNT OF BOOTY TAKEN BY "RED" ARMY**

Special Commission Is Appointed To Take Care Of Material.

**RUSSIA REJOICES**

Prospect Of Peace Seen—Great Battle Likened To That of Verdun

London, Nov. 20.—Soviet Russia has massed fifteen divisions of troops on her western frontier and has begun military operations in the neutral zone between Poland and Soviet Russia, according to an Exchange Telegraph dispatch from Berlin today quoting a radiogram received in Berlin from Moscow. The Polish government at Warsaw is said to be alarmed over the possible intentions of Russia.

Moscow, Nov. 17.—(By Wireless to Berlin)—Nov. 20.—So enormous was the booty captured from General Wrangel in Crimea that the soviet government has appointed a special commission to supervise its transportation from the battle front. The captured embraced every kind of war material, including many French fighting airplanes, tanks, guns, munitions for artillery and small arms and unused uniforms. The prisoners included soldiers from thirty different units of General Wrangel's army.

A great wave of rejoicing swept Soviet Russia when news of the victory was flashed over the government wireless system.

Real peace appears to be in sight for the first time since the soviet government came into power.

The anti-red forces, under General Balachovich and General Petlura which are operating in the western part of White Russia and Ukraine are not regarded as serious obstacles. Military men say these forces can be disposed of in a very short time.

**Discuss Plans.**  
With the prospect of a complete stoppage of hostilities all departments of the soviet government are now discussing re-construction plans. The storming of the defenses of northern Crimea by the red army was one of the most dramatic battles of modern times. Russian military men say that it compares with the battle of Verdun.

The powerful defensive works were believed by General Wrangel's engineers to be impregnable were first breached with violent artillery fire and then the troops poured through the gaps.

Leon Trotsky, commissar of war in the soviet government, personally directed the final phase of the attack. As soon as the Russo-Polish armistice was signed Trotsky left for the Crimean war theatre and organized the advance. The concentration of red troops was completed in October and the battle opened on October 14 north of Peropok, the town at the bottle neck where Crimea joins the Russian mainland.

The first Russian victory was won north of Peropok at enormous costs. Trotsky sent in his best soldiers—shock troops—and they justified Trotsky's expectations.

It is now apparent that the demoralization of Wrangel's soldiers had been under way for some time before the collapse. Twenty-four hours after the fall of Simferopol and Sebastopol local soviet governments were administering all public affairs. They had been established a month previously but had to conduct their affairs by underground system.

**RECOVER AUTOMOBILE STOLEN ON FRIDAY**

An automobile belonging to John A. Robinson, of Jamestown, which was stolen from in front of the McClellan Hospital, on East Second street at 2:45 o'clock, Friday afternoon, was recovered by police on Home avenue, where it had been abandoned Saturday morning, and is being held at Police Headquarters.

The machine was a 1915 model Overland touring car. Robinson parked the car in front of the hospital only a few minutes while he visited his wife, who is a patient at the hospital. When he returned the car was gone.

Robinson notified police immediately and calls were sent to Dayton giving a description of the car. Robinson was in Dayton in search of the car Wednesday, when the machine was discovered by the police, but he had just left Police Headquarters there to make a round of the junk shops when Chief of Police Graham called to notify him of the recovery of the car.

police, the men met the two girls at 10 o'clock at night. Drinking and an automobile drive through the Tenderloin followed. The police report the two girls died from exposure and alcoholism.

Wilmer Bolling, brother-in-law of President Wilson, was brought in as an alleged participant in a \$40,000 "bribe." The money was put up according to the testimony by the Wallace-Downey shipbuilding corporation of Staten Island.

The names of three other Washington men, Tucker K. Sands, former cashier of the Commercial National Bank in Washington; Lester Sissler, formerly a secretary in the shipping board and John Kranor, in alleged agent for the ship building corporation, were introduced as having participated in the "split."

## ULTIMATUM DELIVERED LEAGUE OF NATIONS BY DELEGATE OF FRANCE

Threaten To Withdraw If Germany Is Permitted Admission.

**MATTER IS SETTLED**

Believe Subject Will Not Be Considered At Session.

London, Nov. 20.—It is reported in Geneva that the French representative to the League of Nations assembly meeting has delivered an ultimatum threatening the withdrawal of France from the league if Germany is admitted at the present session, according to an Exchange Telegraph dispatch from Geneva today.

France, said the Exchange Telegraph correspondent, demands that Germany's admission to the league be delayed for at least six months in order to determine if Germany is acting in good faith. The French seek delay for the further purpose of ascertaining what action the United States intends to take following the inauguration of the President-elect Harding in March. France is reported to have agreed to the admission of Austria and Bulgaria to the League.

Geneva, Nov. 20.—The great controversy over whether Lord Robert Cecil, representative of South Africa in the league of nations assembly meeting would move the admission of Germany into the league was definitely settled today by Lord Robert Cecil himself who declared that he does not intend to take such action.

"I favored a policy of conciliation toward Germany, but it is too late to move Germany's admission at the present session," said Lord Robert. "There is no reason why Germany should receive special favors over any other nations that are now outside the league."

**Argentine Favorable.**

The admission of Germany is supported also by Argentina. Dr. Pueyrredon, the foreign minister of Argentina said that his speech before the assembly in favor of admission of former enemies of the allies "leaves no doubt as to the attitude of Argentina." The most sensational incident of the meeting so far was the protest of German colonies by the inter allied supreme council and Germany's threat to break the treaty of Versailles. In some quarters this is regarded as the opening of a campaign by Germany to attempt to retrieve at least part of her former colonial possessions.

Dr. Hjalmar Branting of the Swedish delegation, protests against the scrapping of the present league in order to allow the United States to create a new association of powers.

"We cannot throw away everything we have done simply because it does not please a single element of the United States," said Dr. Branting. "The covenant is not perfect, but it is a big step. There is much in the covenant which is good. I am confident that the present session of the assembly will further democratize the covenant, showing the United States that the best thing for her to do is to enter and assist in further revisions for the future of world peace. American critics who say that the league is worthless only succeed in being abusive."

**FORTUNE DISCOVERED IN CHICKEN COOP; PART OF ROBBERY**

Million Dollar Theft Case Now Virtually Complete.

Council Bluffs, Ia., Nov. 20.—The finding of a fortune in a chicken coop and the arrest of two more suspected persons brought the investigation of last Saturday's Burlington Railway mail robbery, in which estimates of loss run as high as \$5,000,000 to a point where postal officials said the case was virtually complete.

**POPE WILL ASK THAT GAMBLING RESORT CLOSE**

Would Shut Up Monte Carlo As Part Of Crusade.

**RELATIONS FIXED**

Little Likelihood That Request Will Meet With Success.

Rome, Nov. 20.—Pope Benedict XV is preparing to ask the prince of Monaco to close up Monte Carlo, the greatest gambling resort the world has ever known. That the pontiff plans this step in a great crusade against immorality throughout the world became known today.

Diplomatic relations have been renewed between the Vatican and the little principality of Monaco after eight years and M. DePonance has arrived here with his credentials to represent the prince of Monaco at the Holy See.

Vatican circles regard the resumption of diplomatic relations with the principality consists of only eight square miles of territory containing the casino, some luxurious hotels, a park and the prince's palace.

Pope Benedict XV has long been anxious to do away with gambling at Monte Carlo, but he could not approach the prince of Monaco directly so long as relations between the Vatican and the principality were broken.

The pontiff holds that the gambling at Monte Carlo is a source of immorality to both men and women and an appalling waste of money and human life. There is little likelihood however that the pontiff's request will meet with success, no matter how urgent it may be made. Even among officials close to the Vatican no hope is held out that the gambling resort will be closed.

The original trouble between the Vatican and the principality of Monaco arose during the life of Pope Pius X.

## MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

## WHAT Building

Complete in One Factory

Means To You

One manufacturer is solely responsible for, and guarantees, every part of the "Phelps" Plant. In one big 3½ acre factory all three parts (engine, generator and switchboard) are made.

In no other method of manufacture can harmony be built into the plant. Without this harmony there can be no continuous service.

This is one of the many reasons why we sell "Phelps POWER and LIGHT." This is one of the reasons, too, why we feel you will be more than satisfied with your "Phelps."

Regardless of the fact that "Phelps" delivers 1500 watts electric power, PLUS 3½ hp. to the belt (TWICE ORDINARY POWER), it costs you no more than plants that do less than half the work.

Let us show you how the "Phelps" will pay for itself in less than a year on your own farm.

## MARKET IMPROVES AT EARLY START

New York, Nov. 20.—There was evidence of improvement at the opening of the stock market today, about the only weak feature being Sears-Roebuck and Company, which was influenced by the garbled stories growing out of the expiration of the note syndicate which was closed last night. That stock fell three points to 99 1/2 on a few transactions and then came back to 100.

Southern Pacific was steadily taken advancing over 1 point to 109 7/8. Steel common after yielding 1 1/2 to 80 1/4 advanced to 81 and Baldwin after selling off 1 1/4 to 93 rose 1 point to 94. Royal Dutch rose 2 3/4 to 68 1/4. Tobacco Products was again under pressure, yielding 1 3/4 to 48 1/2. Crucible Steel fell 2 1/4 to 88 1/2 and then rose to above 89. Mexican Petroleum fluctuated over a wide range and after yielding 1 1/2 to 151 1/2 came back to 152 1/2. California Packing dropped 1 point to 60.

### NO OTHER CALL

Columbus, Nov. 20.—State Banking Supt. Pontius stated today that no call will be issued at this time for the condition of state and private banks.

## BROKEN LEG WILL KEEP BASKETBALL PLAYER FROM GAME

Basketball prospects at Beaver Creek High School for the coming year, were shattered to some extent last Monday, when Fred Ater, one of the two regulars left over from the team that won the county championship last season, sustained a fractured leg.

Ater was driving to school on horse back when the horse slipped and fell, crushing the boy's left leg, and breaking both bones between the knee and the ankle. He was attended by Drs. W. H. and R. Kent Finley, and Dr. W. R. McClellan of this city, but will be kept out of basketball, it is thought all season.

The loss of Ater, leaves only Raymond Durnbaugh, the only veteran and nucleus of this year's court quintet. Last year, the team developed at Beaver, copped the county championship in the annual county tournament held by Antioch College at Yellow Springs, and therefore the school has one finger on the silver loving cup to given to the team winning the county championship three times.

There is a wealth of material at the championship school however, and while the loss of Ater is a setback, basketball enthusiasts at the school are promising to have another live contender in the field for the county honors this year.

## PRICE OF EGGS IS NOW AT 85 CENTS

The chap who said the turkey was a proud sort of fowl, did not figure with the queen of the barnyard, the hen.

Biddy is now carrying her Plymouth Rock pedigree and her head equally high before the world as she struts across the enclosure.

The artist who might draw "wonder what a hen thinks about," would picture the domesticated bird elaborating on her own abilities, for now she is the author of an egg that has reached the top-mark in price of that commodity.

Eggs are retailing locally at 85 cents, and that price does not call for a basketful as it would in the old days. Instead, 85 cents buys only a dozen. Grocers are paying as high as 77 cents for the hen fruit.

"The hens are not laying," said one country woman, who sells eggs to local grocers. "I have fed my hens every kind of prepared food but it does not seem to do any good," she added.

The inflated price of the breakfast food is laid at the door of the scarcity of the supply. The price is believed to be the highest ever asked for eggs in this city, but it does not create as much excitement as did the beginning of the big raise a few years ago, before people were used to elevated prices.

## MRS. H. GRINDLE DIES SATURDAY

The funeral services for Mrs. Grindle will be held Tuesday afternoon at 2 o'clock at the Byron Church and burial will be made at Byron cemetery.

## SATURDAY TAG-DAY FOR NEW SCHOOL

The Saturday crowd of pedestrians were accosted at every corner Saturday and "held up" for the benefit of the new Opportunity School, that was begun in Xenia this week.

The members of the Parent Teacher Association and the pupils of the High School canvassed the up-town district and sold the tags to many of the citizens.

"Tag Day" was set aside for Saturday by the Parent Teacher Association for the purpose of raising funds for the carrying on of the work of the new Opportunity Schools for backward children that has begun operation in the Episcopal Parish Home.

A market was also held Saturday for the same purpose and contributions that were made was turned into money for the cause. The market was held in the former headquarters of the Harding-Coolidge club on North Detroit street.

## HOLD OPENING OF NEW CIGAR STORE

Carnations in vases adorned the new Mullen-Jenkins Cigar Store, a retail business operated by the Mullen-Jenkins Tobacco Company, at the official opening Saturday in the newly remodelled room on East Main street.

The new store has been attractively decorated to correspond with the new furniture. The store will carry only retail lines, and the Mullen-Jenkins Tobacco Company, is maintaining its wholesale and jobbing department in the present location on South Whiteman Street.

Cigars to the men and carnations to the ladies were the favors offered at the new store at the opening Saturday.

## WILL STAGE GAME SUNDAY AFTERNOON

There will be a football game at Reserve Park Sunday afternoon.

Despite the cancellation of the scheduled game between the Xenia Maroons and the Dayton Oakwoods, because of the inclement weather, the management of the Maroons gave assurance Saturday afternoon that either the Oakwoods or some other good club would be scheduled for Sunday, if efforts would bring them.

Saturday afternoon the Maroons management made efforts to get in touch with the Oakwoods management in regard to rebooking the game. It was impossible to state at that time whether the Oakwoods would be able to get together, but the Maroons management is assuring the public that a game will be secured if it is at all possible.

Word has been received in this city of the death of Mrs. Mary Tiffany, widow of the late John C. Tiffany, who died at the Citizens Hospital, in Barberton, Ohio, at 11:30 Friday night. The cause of Mrs. Tiffany's death was heart failure. She was taken suddenly ill on the train while on the way to visit her daughter in Akron, Ohio, Tuesday and taken to the hospital at Barberton.

Mrs. Tiffany is survived by one daughter and two sons, Mrs. Sallie Kline of Akron, Owen Tiffany of this city, and John of Stanford, Conn.

### ISSUES BANK CALL

Washington, Nov. 20.—The controller of the currency today issued a call for the condition of national banks at the close of business, Monday, Nov. 15.

## DRIVEN FROM A FLAT

Mr. W. M. Fellers, who lived in Lima, Ohio, was compelled to move out of a flat because of his wife's ill health. The neighbors complained that they were annoyed and distressed by Mrs. Fellers' continued coughing. They believing her to have tuberculosis, asked the owner of the flat to have her move because of the danger to the other occupants.

Mrs. Fellers had taken cold which hung on and developed into serious bronchial trouble; she doctored but found no relief until she used Glando Pine. She says: "The first dose seemed to relieve me. Two bottles removed the cough entirely. I have gained in flesh and am just fine. My friends now tell me they never expected to see me out again."

To prevent a cough from developing into pneumonia, bronchitis or consumption use Glando Pine the same cough medicine Mrs. Fellers used. 3 oz. (60 cents worth) of Glando Pine mixed with any good syrup or honey will make one pint or 128 tea-spoonful of excellent cough medicine. Every family should keep this valuable cough medicine on hands to use at the first indication of a cough or cold. May be given to very young children. They love to take it.

## WILMINGTON XENIA PIKE TO BE SURFACED

Just as soon as the weather permits, the tar surface will be put on the Wilmington-Xenia pike where repairs have been in progress and the improved section will be finished.

The tar tank is now in use at Milford, according to the Clinton county surveyor, and will be available for use on the Wilmington pike within a few days. The road has been built up with crushed stone and rolled and the addition of tar will improve the inter-city pike.

That part of the pike not surfaced will be surfaced with a tarvia preparation, which is much thinner than tarvia, and applied without pebbles from the Greene county line to the Shirley Wilson farm.

GOOD-BYE, DEAR OLD ROORBACK—MANY'S THE GOOD TURN YOU'VE DONE US IN THE PAST.

Another of our well known and established institutions that was badly shattered, if not completely blown up, in the last election was the roorback. The roorback has been in every political campaign, if our memory serves us right, since the William Henry Harrison campaign—and before that it worked in presidential elections from Washington's second term down to Harrison's day under an assumed name.

It took the stump in the last campaign, too, principally under the direction of the Democratic committee, and it worked hard. One thing that may be said of the roorback is that it always was industrious. It was not afraid of work, and it didn't hesitate, as many campaign orators do, about getting up in the middle of the night to catch a late train to the next station. It never missed an appointment. A tiresome, ignorant, blatant old rascal, is the roorback, but it seems always to be successful in landing a job with one campaign committee or another.

Its first appearance in the campaign this year was to announce that Senator Harding once said that a dollar a day was enough for any laboring man. It was old stuff. The roorback used that very effectively against John Quincy Adams in his day, except that the correct amount for the laboring man about that time, according to the confidential information from the candidate to the roorback, was much less than a dollar. But all the candidates from Adams down to Harding have communicated to the roorback in some mysterious manner, their views on the amount per day labor should receive, and for thirty or forty years none of them has figured it out that a laboring man should receive more than one hundred cents a day.

When the roorback entered the campaign against Harding with this underground communication, it was laughed off the stage. Some one in the audience said: "Give us a new one." Then the roorback reconsidered. It wasn't a dollar a day, after all. After consulting its notes the roorback found that it was a dollar a bushel for wheat. That's what Harding had said. So, the roorback had cards printed somewhere, and distributed everywhere, by somebody, errand boys for the roorback, that Harding had declared that one dollar a bushel was enough for anyone to pay for wheat.

The wheat story didn't work. Roorback stood to lose its job as a campaigner. Then it came out with a new story. It was about Harding's ancestry. Roorback whispered it. Roorback printed it. Roorback found enough "sims" throughout the country to circulate it. Then roorback folded its long, lean arms across its ignoble breast and said: "There is the record, my fellow citizens, what do you think of it?"

Roorback's fellow citizens didn't hesitate to say what they thought of it. An ancient cabbage smote roorback in the face. An ancient egg struck roorback under the left ear and trickled down over roorback's shabby clothes. A man's-sized boot toe caught roorback near the equator and set the grimy old campaigner into the street, where, let us hope, he was picked up by a garbage man and hauled away to a long, long rest.

Still, come to think of it, what good would it do to throw the roorback into the sewer as long as there are roorback followers entrusted with the ballot? The one hopeful thing about the recent election is that the reaction against the roorback may make it a dangerous thing to place it on the campaign pay roll hereafter. Let us hope.—Kansas City Star.

## EFFORT FOR THE WIDER DIFFUSION OF CHRISTIAN SENTIMENT.

"A movement is on foot for forming in every community a council of all the churches. It is simply a co-ordination of the existing religious forces for increased efficiency. The council would be in charge of an executive secretary, familiar with local religious needs and competent in securing the full co-operation of the churches in the big moral things that affect the entire community.

In Detroit, Cleveland and other large cities church councils of this character have been in effective operation for some time. The churches in those cities, it is declared, are coming to be recognized as a powerful moral force and a most valuable asset to the communities. Instead of a church member acting singly, or just one congregation or probably only a portion of it, there is the concerted action of thousands of church people, representing many different organizations. It has been possible, also, to conduct impressive union services on a large scale, and to remind vast portions of the public of the appeal to worship of the church.

A federation of churches at any place or any time is of course just what the participating members make it. This is true of any kind of civic or business organization. But without organization today no form of activity, business, religious, social or political, accomplishes telling results.

Church people make up the biggest class of the population in practically every city and community. But the tremendous power latent in the churches somehow finds inadequate expression. Often the complaint is made and more often the feeling is had that the churches do not make their influence count. This tends to depreciate the value of church membership.

The churches themselves, particularly in the last two or three years, have realized that the power that resides in their organizations is not sufficiently transfused into the communities, and this new movement is an effort to remedy this defect.

## RIPPLING RHYMES MASTERPIECES.

I stand the bulky book on end, give it a glance, and let it drop—the stuff the wise men recommend to youths who yearn to reach the top. I wonder if the wise men read the dope they'd like to pass along, stale bunk from sages gone to seed, and bards who croak a dreary song. I've tons of volumes in my home, on reading them I'm always bent; but I pass up the musty tome that makes parusal punishment. The mildewed sages, when they wrought, held it a crime to start a smile; I have no use for Gems of Thought couched in a dull and dismal style. The wise men like to stand on end, and say to youth, "Read useful books! Here is a work we recommend—the sermons of Augustus Snooks." But when these wise old boys were lads, they hid in their respective barns, in trembling terror of their dads, and read the Beadle brand of yarns. I say to youth, read high romance, and tales of daring and of gore; the day will come, as years advance, when they won't thrill you any more. Then with the wise men you will stand, and say to striplings blithe and hale (some punk old volume in your hand), "Read anything that's flat and stale!"

## "PACK UP, ROBERTS, WE'RE GOING HOME FOR THANKSGIVING!"

## BEAUTY CHATS

**CLEANSING CREAM**  
There are few women who can get along without using some sort of cold cream. I am not particularly in favor of cosmetics—at least not when exercise and common-sense methods of living are so much more desirable as means to beauty. But cold cream I consider as necessary as soap, and in some cases even more necessary.

If you have a dry skin you will need a cold cream containing a certain amount of vegetable oil since this is readily absorbed; but if you have a normal skin and no wrinkles to bother about, you can get along just as well with a mineral oil cream which simply cleanses.

An excellent formula for such a cream is as follows:

White Wax ..... 1 ounce  
Spermaceti ..... 1 ounce  
White mineral oil ... 5 ounces  
Rosa Water ..... 1-2 ounces  
Powdered borax ..... 30 grains  
Perfumed oil ..... 15 drops  
Melt the wax, spermaceti and oil over a slow fire. When all are melted together remove from the heat, add the borax and slowly pour in the rose water, which has been slightly warmed. Stir and beat until the liquid begins to congeal then pour off into jars.

A little of this can be rubbed into the face before it is washed in order to avoid chapping from the winter winds. After a train ride or a long journey in the car or carriage a little of this cream should be rubbed in before any water touches the face. It can be used as a general cleanser and even rubbed into the skin before exposure to cold winds. It is nothing but a cleansing agent; it will not grow hair; all it does is to get out dirt from the pores where even soap and water will not reach.

Anxious—It is so hard to get rid of freckles that it is much better to spend your efforts in avoiding them rather than curing them. All mild skin bleaches will help to remove them, but can never be absolutely depended upon.

Blackheads are another matter. You must, first of all, have your digestion in good order and you must be sure that there is no constipation. Then you can begin to treat the black pores themselves. If you will write me a letter with a self-addressed, stamped envelope enclosed I will be very glad to mail you a formula for a blackhead cleansing powder.

This is rubbed into the skin when the pores are open and absorb the black grease of the blackheads. When it is washed out much of this blackness comes with it. Repeated treatment with the blackhead powder, hot water and cold cream, will cure the most obstinate case, provided always that your physical condition is normal.

## MARTIN DALY IS DEAD IN HOSPITAL

Martin Daly, of Springfield, and a former Xenian, died at St. Elizabeth's Hospital, Dayton, at 9:10 o'clock Friday evening, after a long illness.

Death was believed due to enlargement of the heart and high blood pressure, starting it is thought from his teeth. He was ill at his home in Springfield several weeks, before being removed to St. Elizabeth's hospital, in Dayton about four weeks ago.

Mr. Daly was a son of the late Mr. and Mrs. Luke Daly, of this city, and was born here 47 years ago. He had been employed for a number of years as a conductor on the Big Four railroad. Surviving are his wife, two daughters, Miss Mary Daly, of Cleveland and Mrs. Al. Daneman, of Springfield, a brother, John E. Daly and a sister, Mrs. J. M. Fletcher, both of this city. Another brother, Luke Daly, died in Cincinnati about six years ago. The funeral arrangements have not yet been announced but will probably be held Monday morning, in Springfield.

vices were from the Johnson undertaking parlors.

## WOMAN ATTACKED BY NEGRO FRIDAY EVENING IN XENIA

Mrs. Walter H. Owens, 405 Cincinnati avenue, was seized by a Negro and her pocketbook containing about \$6 was stolen when she was returning to her home shortly after 8 o'clock Friday night. The attack took place near the intersection of Cincinnati avenue and California streets.

Men who were near by at the time of the attack, chased the colored man for several blocks but he managed to escape. Later, John Atkins, 13, colored, was arrested by the police on suspicion of being the man wanted in the case and is being held at Police Headquarters, pending identification.

Mrs. Owens, with Mrs. Charles McNamee, 702 West Second street, was returning to her home, when the youth, carrying a heavy piece of iron seized her. Throwing his arm around her, the negro caught her by the throat, knocking her over. As she fell the pocketbook fell from her grasp, and the man snatched it and ran. The pocketbook containing \$3, was found on Charles street, later.

## LIGHT COMPANY RATE INCREASED IN TOWNS IN GREENE COUNTY

Based on the high price of coal, the Dayton Power & Light Company, of Dayton, which furnishes electric light and power in Greene County, has put in effect a slight increase in all towns in the county excluding Xenia, on the electric light rate.

The new rate, which has been allowed by the State Public Utilities Commission, is 12 cents per kilowatt subject however to a discount of one cent per kilowatt, which makes the actual rate 11 cents per thousand watts. While this rate is actually one cent higher than the rate at present in effect in Xenia, there has been no movement started to raise the rate in this city, and no request for an increase has been laid before the State Public Utilities Commission.

E. H. Heathman, manager of the Xenia branch of the company, said Friday that he did not know whether the company would attempt a rate increase in this city, but that if the company did decide on such a course, that the public would be informed through the publication requirements of the State Utilities Commission, at least 30 days before the proposed rate should go in effect.

The increase in rates to the other towns and consumers in Greene County, was allowed by the State Utilities Commission because of the high price of coal. The rate is conditional for according to the agreement of the State Commission, if the price of coal drops to \$4 a ton or less, the rate shall revert to the old price of ten cents per kilowatt.

At Jamestown, the village council at first refused to grant the new rate, but after the State Utilities Commission agreed upon the raise, the council accepted the new rate in an amendment to the ordinance, fixing the light rates. The new light rates over the county, do not affect the power rate which remains unchanged, according to Mr. Heathman.

## KATZ CLOTHING STORE LEASES NEW SITE IN CAPITOL CITY

Leo Katz, brother of Milton Katz, local clothier, and one of the Katz brothers who operate a chain of clothing stores in this part of the state, has negotiated a 99-year lease on the property at 43-45 North High street, Columbus, which for 38 years was occupied by the Busy Bee.

Announcement of the deal has been made by the Goodman-Hague Company, realtors who represented Geir and Wilson, lessors of the building owned by one of the Chittenden estates. Mr. Katz recently purchased the Bryce Brothers Company, clothiers and men's furnishings, and his holdings in Columbus now aggregate more than \$1,000,000.

The new building represented in the last purchase is a four-story structure of brick and stone, with a frontage of 31 1-4 feet on High street and extending through to Wall street. Consideration in the deal was not made public but the lease is said to call for an annual rental based on a valuation of more than \$10,000 a front foot. The building will be remodeled into one of the finest clothing stores in Columbus, according to the purchaser.

Leo Katz, has been a resident of Columbus for six years. With his brothers, he operated stores in Xenia, Washington, C. H. Circleville and Wilmington, and formerly had a location at Piqua.

### PLANS FOR A LUNCHEON

Chapter 18  
"When shall you ask Mrs. Stowell to luncheon?" Clara asked.  
"Oh, next week, I guess." Dick would get his pay then and I would have her before it was gone. I did not tell Clara this, however. She was so carelessly indifferent about money that it made me feel small and mean to have to apologize or explain things to her. "Where shall we go—not too expensive a place?"

"There isn't more than five or ten cents difference in a good restaurant and in one of the hotels. Go to the Vanderbilt or the Waldorf. It's a little more select, don't you think?"

"Yes—perhaps. You will have to help me with the menu, Clara. I never have ordered in any public place. I never have been out to eat in New York without Dick. And he orders so beautifully."

"Well, I've been out a good deal, Nan, and I guess between us we can get along all right. I think it is sweet of you to ask me too. I shall be delighted to know Mrs. Stowell. If she wasn't so fat she would be stunning."

A few days after this conversation I telephoned Mrs. Stowell.

"Oh, that will be delightful!" she replied when I told her I wanted her to lunch with me the next day, and meet a friend. "I was so sorry you were out the last time I called." Then once again: "Thank you so much for your luncheon invitation; what time?"

"One o'clock, at the Waldorf," I knew Clara favored the Vanderbilt, but I had been to the Waldorf once or twice with Dick and it seemed as if I would be less strange there. "I am so glad you are disengaged," I added. I had not acknowledged even to myself that I had vaguely hoped she might have a previous engagement, so I might have the credit of inviting her without the expense of the entertainment.

I decided not to tell Dick about the luncheon. I would tell him after it was all over. I had a feeling that he would not approve, that he would want me to entertain her at the house. I had determined not to do it, had invited her to the Waldorf, so the invitation would have to stand, but he might say something to spoil my good time and make me uncomfortable so I would wait.

I wrote a note to Mrs. Dooly and slipped down and put it under her door while Dick was playing with the baby. She would have to come and stay with Junior, and unless she knew in advance she was apt to be out when I needed her.

I felt rather excited all evening thinking about it. Dick rallied me once or twice upon my absent-minded answers when he spoke, and wanted to know what was on my mind.

"Oh, nothing! I guess I am tired," I evaded.

"Poor kid. Some day you won't have to work so hard—I hope. You won't if I can prevent."

"I shall unless you earn more than you do now."

"Oh, I don't feel so sure about that. These awful prices will have to come down. People are talking deflation already. Some day our dollar will buy almost a dollar's worth again."

"I sincerely hope so."

"By the way, Nan, you were saying something about wanting to have the Stowells up. Why not ask them to a pick-up supper Sunday night? You make such good things in the chafing dish, and they would enjoy them, I know. People who have a raft of servants and live as they do always enjoy some unconventional affair."

"No indeed! I wouldn't ask them here for worlds. When we move into a decent apartment where people don't get all tired out climbing up to see us we may invite them. It is bad enough to have the others here, the people in our own circumstances. Even they, most of them live in elevator apartments."

"I'm sorry you feel so about your home, Nan. It is the best I can do for you, and I think it is a really cozy little place. Don't be ashamed of it dear. It isn't necessary. Then, too, you always keep it like a new pin. You're a dandy housekeeper."

"Think it over, dear, and if you decide to ask them I'll telephone them from the office. Save five cents you know."

Was Dick growing stingy and small, I wondered after he had gone—Saving five cents by using the office telephone!

## Nervous Breakdown

"I am so nervous it seems as though I should fly"—"My nerves are all on edge"—"I wish I were dead." How often have we heard these expressions or others quite as extravagant from some loved one who has been brought to this state by some female trouble which has slowly developed until the nerves can no longer stand up under it. No woman should allow herself to drift into this condition without giving that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound a trial.

North East, Md.—"I was in ill health four or five years and doctored with one doctor after another but none helped me. I was irregular and had such terrible pain in my back, lower part of my body and down each side that I had to go to bed three or four days every month. I was very nervous, tired, could not sleep and could not eat without getting sick. A friend asked me to take Lydia E. Pinkham's Vegetable Compound and I am sorry I did not take it sooner for it has helped me wonderfully. I don't have to go to bed with the pain, can eat without being sick and have more strength. I recommend your medicine and you are at liberty to publish my testimonial."

ELIZABETH WEAVER, R. R. 2, North East, Md.

Minneapolis, Minn.—"I was run down and nervous, could not rest at night and was very tired in the morning than when I went to bed. I have two children, the youngest three months old and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from my milk so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children, and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."
